

Beverly

Beverly is a new soft-leaf Oceanic (intermediate) cocksfoot from the RAGT program that has outproduced Greenly.

GENERAL FIT

Beverly has similar leaf softness, higher ME and lower NDF% like Lazuly, but considerably better than other commercial varieties. This enables it to deliver higher liveweight gain potential.

Beverly has higher overall yield and improved rust resistance to Greenly and Lazuly, but similar persistence. It is a few days later flowering.

FEATURES

High forage yields Excellent feed quality
Good disease resistance

BENEFITS

- More feed when it is needed
- Outstanding animal performance
- Increased palatability by stock

SOWING RATES

10-12kg/ha

Suited to All Livestock Types, Silage and Hay

Late Maturity

Australian Release >2019
