

Endurance

Endurance is a new forage plantain with improved feed production across all seasons.

FEED FOR ALL SEASONS

Plantain is a drought hardy deep rooted perennial herb well adapted to low fertility soils. Existing varieties have either been winter active and early flowering or summer active and late flowering.

Endurance provides similar winter feed to Tonic, but with improved warm season production. It is ideal for pasture mixes where producers are looking for a contribution from plantain across all seasons.

Being around 4 weeks later flowering than Tonic, it will not lose quality so early in the growing season.

FEATURES

Mid season maturity All season growth

Frost tolerant

BENEFITS

- Suited to a broader range of environments
- Fills more than one feed gap
- Will still grow feed in extreme winter cold

SOWING RATES

Sole species 8-10kg/ha
 Pasture mixes 3-5kg/ha

Suitable to All
Livestock Types

Mid-Late
Maturity
