

RGT Accroc

RGT Accroc is a bearded, medium-long growing season winter wheat with potential for high yields in the medium and high rainfall zone.

FULL SEASON GROWING POTENTIAL

RGT Accroc is a bearded, medium-long growing season winter wheat with potential for high yields in the medium and high rainfall zone. It is a variety that has taken a high market share in France where its combination of earlier maturity, high yields and good grain quality has made it desirable for growers and end-users alike.

The variety has a good disease resistance profile with very good resistance to stripe rust. With short stiff straw, harvest quality is good producing large bold grain with a high thousand grain weight.

Type	Winter red wheat
Disease Resistance	Visit nvtonlin.com.au
Seedling Vigour	Excellent
Grazing Potential	Very good autumn and winter
Sowing Zones	NW & SW slopes, S Tablelands NSW, N Victoria (irrigation), S Victoria, South-east SA, Tasmania

End Point Royalty
>\$4.40/tonne (excl. gst)

FEATURES

Full season growing potential High yield potential

Early heading and maturing Short stiff straw

Increased income potential for autumn/winter grazing when sown early

SOWING RATES

80-120kg/ha

Mid-Late
Maturity

Australian
Release >2017
