

# Dynatron TT

Dynatron TT combines the value of the Triazine Tolerant herbicide system with other hybrid seed traits.

Type	Hybrid
Herbicide Tolerance Group	Triazine Tolerant
Blackleg Resistance	MR-MS (bare)
Resistance Group	BC
Seedling Vigour	Excellent
Crop Height	Medium-Tall
Oil	High
Alternative To	HyTEC Trident, HyTEC Trophy, InVigor T4510, Hyola 550TT, Hyola 559TT, ATR Bonito

## FEATURES

An EPR of \$10 per tonne (ex GST) applies to Dynatron TT to minimise upfront costs

Significantly higher yielding compared with OP TT cultivars (>17% in 2019 than ATR Bonito - refer to NVT data below)

## SOWING RATES

Average yield range	Optimum plants
1-2/ha	20-40 plants/m <sup>2</sup>
2-3.5/ha	30-50 plants/m <sup>2</sup>

Mid  
Maturity

Australian  
Release >2021
