

# RGT Accroc

RGT Accroc is a bearded, medium-long growing season winter wheat with potential for high yields in the medium and high rainfall zone.

## FULL SEASON GROWING POTENTIAL

RGT Accroc is a bearded, medium-long growing season winter wheat with potential for high yields in the medium and high rainfall zone. It is a variety that has taken a high market share in France where its combination of earlier maturity, high yields and good grain quality has made it desirable for growers and end-users alike.

The variety has a good disease resistance profile with very good resistance to stripe rust. With short stiff straw, harvest quality is good producing large bold grain with a high thousand grain weight.

<b>Type</b>	Winter red wheat
<b>Disease Resistance</b>	Visit <a href="http://nvtonlin.com.au">nvtonlin.com.au</a>
<b>Seedling Vigour</b>	Excellent
<b>Grazing Potential</b>	Very good autumn and winter
<b>Sowing Zones</b>	NW & SW slopes, S Tablelands NSW, N Victoria (irrigation), S Victoria, South-east SA, Tasmania

End Point Royalty  
>\$4.00/tonne (excl. gst)

## FEATURES

Full season growing potential      High yield potential

Early heading and maturing      Short stiff straw

Increased income potential for autumn/winter grazing when sown early

## SOWING RATES

80-120kg/ha

Mid-Late  
Maturity

Australian  
Release >2017
